

Something about shapes.

This is the exact size and shape of the finest cigar that comes from Cuba. It sells at 50c each.

This is the exact size and shape of another Havana cigar, almost as fine, that sells for 30c each.

This is the exact size and shape of the OWL, the Million Dollar Cigar, that sells for 5c.

The makers of the highest-priced cigars—men who receive as much as 50 cents for a single cigar—favor the square-end shape. Why?

Because the square-end shape yields the highest percentage of smooth-burning, satisfying smokes to the smoker—that is why we make the OWL in the square end shape.

The Million Dollar Cigar

M. A. GUNST & CO.
INCORPORATED

Do you want a clear skin?

Many an otherwise attractive man or woman is a social failure because of a poor complexion. If your skin is not fresh, smooth and glowing, or has suffered from an unwise use of cosmetics, let Resinol Soap help nature to clear it, in a normal, healthy way.

Simply use Resinol Soap regularly once or twice a day, and see if it does not quickly soothe and cleanse the pores, lessen the tendency to pimples, and leave the complexion clear, fresh and velvety.

When the skin is in really bad condition, spread on just a little Resinol Ointment for ten minutes before using Resinol Soap. Resinol Soap and Resinol Ointment are sold by all druggists. For samples, free, write to Dept. 2-E, Resinol, Baltimore, Md. *Use like Resinol Shaving Stick.*

RATES ON FLOUR TOO HIGH SHOWN AT C. C. HEARING

Startling Contrasts Produced by Rate Expert Betts at Inquiry Into Flour and Grain Rates in State of Arizona

A. A. Betts, rate expert for the corporation commission, took the stand yesterday morning in the inquiry into the railroad rates on flour and grain, sought, by the flour mills of Arizona, and being conducted by the corporation commission and showed where the rates being charged by the carriers are in most instances fifty per cent higher than the rates of other states in the west and north-west.

Betts has been working weeks on his exhibits, for the flour case, and when called to the stand, had an array of figures and statistics, that almost staggered the railroad men. In every instance he showed that Arizona rates are far higher than anywhere else. The reply of the railroad men to justify this, was that the population of Arizona is so small, that higher rates are justified. To refute this, Betts had prepared a table showing the population of Nevada, per railroad mile, and per square mile is just fifty per cent of the population of Arizona, and still the rates there on flour and grain are much smaller.

Betts' exhibit showed that 15 points in California out from San Francisco are receiving grain and flour at a rate per ton mile of \$0.25 while in Arizona, 15 points from Phoenix, equally as distant as the California points, it costs \$0.45.

He also produced twelve points in California, where the rate per ton mile is \$0.185, while twelve points in Arizona an equal distance, are being charged \$0.475 per ton mile, a charge of nearly three hundred per cent larger.

Perhaps the greatest contrast between the Arizona rates, and rates charged on flour in other states, was eight points in the Missouri Valley district, to points in the northwest, which were being charged \$0.094 per ton mile, while an equal number of points in Arizona were being charged \$0.651 per ton mile, or about seven times as much.

After Betts had shown the contrast between the rates of Arizona on these commodities, and the rates of other sections, he suggested the following plan, to lower the Arizona rates. He had taken the rates in New Mexico, Texas, Idaho and Montana, where conditions are similar to those in Arizona and averaged them. The average rate, he stated would be a fair basis for the proposed rates here.

Betts had prepared in the neighborhood of two hundred contrasts between Arizona rates, and the rates in effect in other states. In every case, it was shown that a higher price is being charged per ton mile, than in any other place in the country.

A. J. Goldsmith, of Tucson, head of the Eagle Milling Company of that place, was on the stand in the afternoon. Max Nault, of the Mesa Milling company, J. W. Van Ritter of the Tempe Mills, and H. P. Kennedy representing the Phoenix Mills were also on the stand. For the railroads, H. C. Hallmark, of the Arizona Eastern, A. M. Reinhardt of the Santa Fe, and W. C. Barnes of the El Paso and Southwestern, took the stand.

The hearing was finished yesterday.

STEEL BRIDGE TO REPLACE CONCRETE

Hassayampa Structure at Wickenburg to be Replaced; Bargeman Declares for New Steel Type

The bridge over the Hassayampa at Wickenburg washed out by the raging floods last winter will be rebuilt at an early date by the Midland Bridge and Iron company. The board of supervisors let the contract yesterday for \$273,200 and the bridge must be finished 90 days from the date of contract which reads for a steel bridge, pony truss 96 ft. 4 in. span, in place of the two concrete spans and pier that were washed out.

County Engineer Harold Bargeman believes the selection has been a good one. He advocates the "no pier" plan which will give a 95 ft. channel clearance. "Heretofore there was only a 70 ft. clearance," he said in discussing the proposed repair work. "By having the channel wide open there will be nothing to embody the brush which flows in the floor period."

Bargeman stated that the work would probably begin at once owing to the ninety day time limit.

The Supervisors set the hearing for four road petitions in various parts of the county for June 24. The regular routine business included among other matters the appointment of road viewers.

GARDINER HEARING IN JUSTICE COURT

The preliminary hearing of Fred Gardiner charged with procuring the false registration of Savannah Robinson is set for ten o'clock, Wednesday morning in Judge De Souza's court.

Gardiner will be tried on the same charge brought against him by the city court where he was held to answer to the superior court. Judge Stanford denied the jurisdiction of the city court to entertain a complaint in a felony case or to hold a defendant to answer to the higher court. After the case was dismissed Gardiner was arrested by the county.

principles and only secondarily for myself.

"Any man with this time of crisis who is not aggressively, openly and specifically for these principles, is against them and every patriotic man should treat our public servants on this basis."

INSANITY WILL BE DR. WAITE'S MAIN DEFENSE

(Continued from Page One)

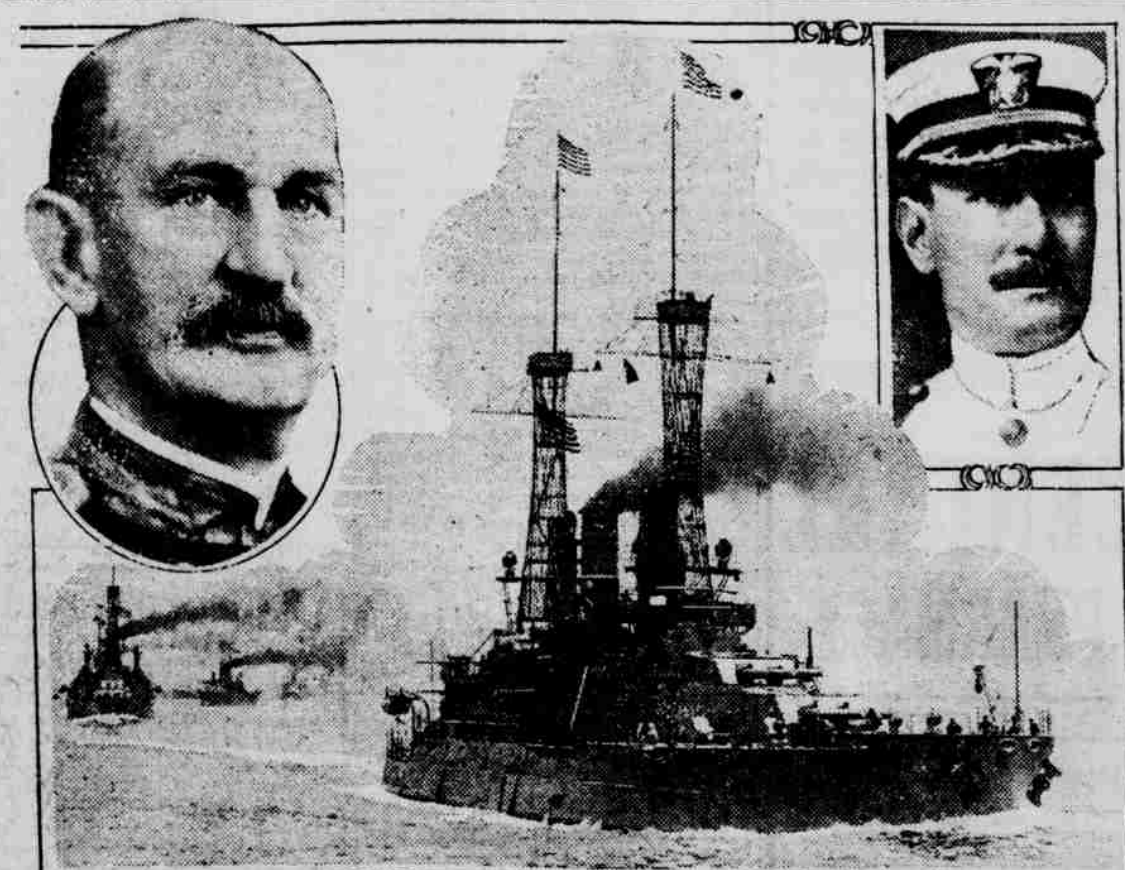

in the brain if administered before death.

Waite's counsel intimated that they would rely entirely upon a plea of insanity to save their client from the chair. To combat testimony that probably will be given tomorrow by alienists, both from this city and Grand Rapids in support of the prosecution's contention that Waite was sane and his crime actuated by a desire for money, the defense announced tonight that one or more alienists would be called by them.

Neither Mrs. Clara Louise Peck Waite, wife of the prisoner nor Mrs. Margaret Horton, his companion in a "studio" here were present at the trial today. Both, however, will testify against Waite, the district attorney announced. Mrs. Waite probably will go on the stand Wednesday morning. Her brother, Percy Peck, will precede her.

IN FROM SAFFORD—Andrew Kimball of Safford and Mesa, arrived in Phoenix last night and is registered at the Commercial.

FLEET READY FOR "ANY EMERGENCY," SECRETARY DANIELS TOLD

North Atlantic fleet, led by battleship Michigan, at maneuvers; Vice Admiral Mayo (left), Captain Albert P. Niblack, commander of the Michigan.

"In every respect, the shooting was the best the navy ever did." This sentence, taken from the report of Vice Admiral Mayo on the recent target practice of the Atlantic fleet in Cuban waters and just made public by Secretary Daniels, forms the substance of the report, accompanied as it is by the admiral's simultaneous declaration that the fleet is "ready for any emergency."
